

LIST OF ITEMS FOR DIAGNOSIS AND TREATMENT PLANNING

--- Please send the following three items to us for pretreatment evaluation. Please send information for 3 - 4 potential candidates. Allow a minimum of 2 weeks for confirmation of case selection (2 patients).---

- 1 - Good quality PANORAMIC RADIOGRAPH (showing anterior mandible clearly)
- 2 - Photograph of Proposed Surgical Sight
- 3 - Standard Medical/Dental History Form (Be Sure To List Bisphosphonate Medication Use)

Patient Selection Criteria:

- * Avoid cases with negative anterior mandibular ridge.
- * No need for or Recent Extractions from Foramen to Foramen.
- * ASA I or II patients.
- * Adequate Attached Tissue.
- * Existing Dentures not Excessively Worn.
